

Five **5** nasty germs were eager to play,
But then came the water and washed one away

So four **4** nasty germs tried to have some fun,
Until the soap came along and one had to run.

Then three **3** nasty germs tried to make you sick,
But along came the scrubbing and one couldn't stick.

When those nasty germs got into a fight,
The rinse came along and washed one out of sight.

The last nasty germ thought it couldn't be seen,
But along came a towel and the hand was clean!
